

# Greenwich Community Games

As a key local authority, Greenwich Council is a host borough for the 2012 Olympic and Paralympic Games, which will act as a major catalyst for the development of sport and active recreation. The 2012 Olympic and Paralympic Games will generate exciting sporting opportunities in the Borough, and create a unique opportunity to promote greater levels of sport and physical activity, as well as raising the profile of the benefits of a healthy lifestyle.

Greenwich Community Games (GCG) is an exciting new project, developed by an extensive partnership as part of the Greenwich Sport, Physical Activity and Health (SPA) Group. In partnership with Sport England, GCG aims:

- To increase participation in sport and active recreation by developing a community based multi-sports programme for adults in Greenwich.
- To increase the numbers of qualified coaches to achieve nationally recognised National Governing body coaching qualifications.
- To support new local sports projects.
- To help support volunteers who want to get involved in local sport

For more information about how you can get involved, please contact the **Greenwich Community Games Team** on:
